

THE NATIONAL PROGRAM OF NEW INDUSTRIAL PARKS

❑ **An ambitious program of achievement of new industrial parks:**

- The government entrusted to ANIREF an ambitious program of development of 49 new industrial parks totaling an area of **11. 622 ha** spread across **39 wilayas** and span over **9 territorial programming spaces of the National Scheme of the Territory Development.**

❑ **An innovative approach:**

- These infrastructures are designed to ensure:
 - ✓ The structuring of the territory;
 - ✓ The promotion of productive investment;
 - ✓ Local development;
 - ✓ The consolidation of regional balance policy.

❑ **Spatial deployment of the program:**

- The geographical location of the 49 parks takes into account:
 - ✓ The guidelines of the of the National Scheme of the Territory Development;.
 - ✓ The needs of local development expressed by local authorities;
 - ✓ The basic infrastructures (East West Highway and the projected Highlands bypass), with a view to:
 - ❖ Ensure the profitability of these basic infrastructures;
 - ❖ Focus on the development of territories to promote: the Highlands and the South.

Location of the 49 Sites

Region	Territorial programming spaces	Regions covered	Number of parks	Area (Ha)
Noth	North Center	Alger, Blida, Boumerdes (2) , Tipaza, Bouira (1) , Médéa (1) , Tizi Ouzou (2) , Bejaia (2), Chlef (2), Ain Défla (1)	11	2 861
	North East	Annaba (1) , Constantine (3) , Skikda (2) , Jijel (1) , Mila (1) , Souk Ahras(1) , , El Tarf (1) , Guelma (1)	11	2 754
	North West	Oran (1) , Tlemcen (1) , Mostaganem (1) , Ain Témouchent (1) , Relizane (1) , Sidi Bel Abbes (2) , Mascara (1)	8	1517
	S/Total North		30	7 132
Highlands	Highlands Center	Djelfa (1) , Laghouat, M'Sila (1)	2	478
	Highlands East	Sétif (1) , Batna (1) , Bordj Bou Arreridj (2) , Khenchela, Oum El Bouaghi, Tébessa(1) ,	5	1 500
	Highlands West	Tiaret (2) , Saida (1) , Tissemsilt, Naama (1) , El Bayadh(1),	5	1 046
	S/Total Highlands		12	3 024
South	South West	Bechar (1) , Tindouf, Adrar (1)	2	402
	South-East	Ghardaïa (1) , Biskra (1) , El Oued, Ouargla (1)	4	1 000
	FarSouth	Tamanrasset, Illizi (1) ,	1	64
	S/TotalSouth		7	1 466
Total			49	11 622

Distribution of the area per territorial programming space

Geographical location of the sites

Principles of development of the new industrial parks

The aim is to achieve:

- ❑ **Integrated projects** including a land supply tailored to the needs of investors as well as quality services and support infrastructure;
- ❑ **Sites developed in strict respect for the environment:** no risks, no pollution, no ecological constraints;
- ❑ **Well-developed spaces, providing a coherent and controlled industrial landscape** guaranteeing :
 - A quality living environment;
 - Optimum service and connectivity (junction to networks adapted to traffic and flow);
 - Secure living areas with networks and services to business and users.
- ❑ **A modern and efficient management.**

Development of activities and space

Spaces for activities

Spaces for equipments

Spaces for urban and landscape integration

Spaces for services and logistics

A direct action on territorial supply

State of progress of the program

In order to give a fresh impetus to the process of achievement of the new industrial parks and speed up its implementation, a readjustment of ANIREF's program was needed.

Thus, measures were taken in July to give a fresh momentum to the program implementation process; within this framework, it was decided to:

- Review the procedure of call for tenders underway.
- Use the formula "maturation studies" then "Completion" for the remaining projects for better handling deadlines and costs.
- Draw up a shortlist once a restricted national and international call for pre-selection is launched.

This strategic reorientation process will enable ANIREF to reduce lead times, better assess development costs and conclude contracts with the best companies and engineering offices
